

ORGANIC ATOMIC

As its name indicates, the design of Organic Atomic is reminiscent of the smallest particle that an element can be reduced to. This lighting object resembles the organic both systematic composition of everything we see around us. Based on the organic work of art, the spheres are connected in a way that the whole forms an impressive and striking piece of lighting. The Murano glasses with silver leaf are specially blown and designed for this new Pieter Adam series. Sculpted by hand and casted in brass, the connecting pieces can be linked in many ways providing endless possibilities for customization. This leaves lighting architects the opportunity to give their own interpretation to this design and fit it perfectly into their lighting projects.
