High fashion inspired chandelier.

Madmoiselle is a glamourous and stylish chandelier inspired by the icons of high fashion. It is considered a modern looking chandelier which, on the other hand, preserves traditional glassblowing techniques in the making. The contrast between the lampshades and the glossy finish of the arms makes it an original choice for a chic interior. Diameter varies upon configuration, min diameter 70cm, max diameter 100cm. Available in custom finishes and sizes.
