

VENUSSIANO

Design by Maria Grazia Rosin

50's inspired funky piece.

Venussiano chandelier is heavily inspired by the 50's. The stock version of this chandelier comes in a glossy red colour, looking like it stole its look from your favourite soda. The otherworldly look also slightly refers to a space-age look inspired by flying saucers and extraplanetary components. Flat "cup" components sprout in every direction, making this piece also functionally efficient as a lighting device. Diameter 100cm.
