

# 7081

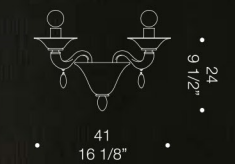

Design by de Majo Heritage

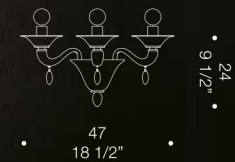

## Antiqued, precious look.

7081 is a beautiful chandelier which features traditional glassmaking techniques, including submerging 24K gold leaf in milky white glass, to obtain a rich and elegant antiqued effect.

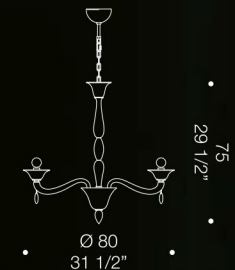

The harmoniously proportioned look of this piece is what makes 7081 perfect for high-end residential or hospitality projects. A timeless piece for a sophisticated interior, a heirloom for future generations to cherish.
