MULTIFORME

An eclectic collection. The blown glass lamp Absolute is a lighting work that can be customised in many different ways. **Absolute has been designed with the purpose to create emotional lighting effects** mixing the magic of Murano Glass with a simple platonic shape as the sphere.

In Absolute the dimensions of the traditional cotton lampshade has been dramatized. The lampshade constitutes the basic structure of this lighting work, inside of it the sources of light have been placed.

From inside this large round structure, a group of glass spheres of different sizes goes down. These spheres have been decorated using various techniques, such as the **“baloton”**, **“rigadin”**, **“rigamenà”** and **“pulegoso”**. The thin wires that support the spheres are almost invisible, so that the spheres seem to float under the lampshade.
