DROP
in the
SEA

DROP

design | Brian Rasmussen

A drop in the sea.
Like a stone thrown into water stirs waves and reverberation, light transforms and brings DROP to life. The glass diffuser, decorated by several layers of serigraphy, gives the product a decoration that can only be seen when the lamp is illuminated. The diffuser is also wrapped in a structural prismatic PMMA element that spreads the light in a uniform manner all around.

*Una goccia nel mare
Come il sasso lanciato in uno specchio
d'acqua la anima di onde e riverberi, così la
luce trasforma e dà vita a DROP. Il diffusore
in vetro, decorato da diversi strati serigrafati,
conferisce all'oggetto una decorazione luminosa vi-
sibile solamente accendendo la lampada. Quest'ul-
timo è avvolto da un elemento strutturale in PMM
prismatico che diffonde la luce in modo omogeneo
nell'ambiente.*

DROP MIRROR

design | Brian Rasmussen

new

The DROP WALL MIRROR version replaces the silkscreened glass plate with a mirror. The mirror has a sandblasted band which is illuminated from behind. The lamp also illuminates laterally through the prismatic PMMA structure.

La versione DROP MIRROR APPLIQUE sostituisce la lastra in vetro serigrafato con uno specchio. Lo specchio ha un bordo sabbata che lascia passare l'illuminazione retrostante. La lampada si illumina anche lateralmente attraverso la struttura in PMMA prismatico.
