The clear glass of our CARNIVAL collection brings both light and elegance to the stylized bistro EINSTEIN<sup>2</sup> in Prague.

An impressive line of 8 suspensions illuminates perfectly the bar desk whereas the wall sconce versions illuminate the lounge area of the bistro.

The matt gold finishing of the metal fixtures is integrated with the choice of materials and colours of the interior design by Petra Indruchová.

*Il vetro trasparente della nostra collezione CARNIVAL dona luce ed eleganza al bistrot di grande stile EINSTEIN<sup>2</sup> a Praga.*

*Un'imponente linea di 8 sospensioni illumina perfettamente il bancone del bar, mentre le versioni ad applique illuminano l'area lounge del bistrot.*

*La finitura oro opaco delle montature in metallo si integra con la scelta di materiali e colori dell'interior design Petra Indruchová.*
