

8089

Design by Francesco Dei Rossi

A floral masterpiece.

8089 is a fascinating chandelier with floral designs. One of the peculiarities of this piece is the orientation the arms, blossoming like wild flowers in every direction, which communicates the thriving strength of nature. A perfect centrepiece for big dining halls, as well as hospitality interiors. It features textured arms which Venetians call "rigadin" style. Easily one of the most beautiful and elegant pieces of this collection. Available in several different configurations, finishes and sizes, including a 150cm diameter, 200cm height version.
