

Guise

Design by Stefan Diez.

Crafted of precision glass and embedded with a row of recessed LEDs, Guise explores the relationship between light and transparency. The light inside the glass appears invisible while the delicately engraved surface radiates an intense glow, the markings beautifully diffusing the light.

Guise is crafted of precision-cut borosilicate glass, a lightweight, yet heavy-duty material prized for its superior strength and durability. Embedded with recessed LEDs, Guise explores the relationship between light and transparency. Inside the glass, the light appears invisible while the delicately engraved surface radiates an intense glow, the markings beautifully diffusing the light. The ceiling light is surface-mounted and available in several sizes.

● 18 Graphite (ADAPTA RF9913WX)

Body: Aluminum.
Diffuser: Borosilicate glass.

LED 3000 K, CRI >90. 118 lm/W.
Dimming: 1-10V.

Surface mounted.

Personalization options available

- LED 4000 K
 - Dimming: DALI, Casambi.
