

KARMA CHAMELEON

Every once in a while, Pieter retreats to his happy place; his atelier. For him, as an artist, there is no greater joy than to create something from a large piece of wax using just his bare hands. This sculpture succeeds in being true to nature while also showing the artist's characteristic hand. With its colour-changing skin, specialised eyes and long tongue, the chameleon is quite the distinguished outsider. A creature that is unique in both the animal world as well as the world of interior!
