

This large-format light with a matte core by designer Lucie Koldova embodies a gentle poetry, simplicity, purity, and balanced proportions. A key role is played by the inoculation of luminous bodies and their mutual interaction in space. The sophisticated design of a bubble suspended in

the centre of a large sphere evokes a sense of levitation. The outer glass is available in either transparent or smoke grey transparent with gloss finish; the inner glass in matte triplex opal, smoke grey transparent, red transparent, or light pink transparent. Big One lights come in two sizes.
