Brass Crafting Masters

Brass handling is the history and foundation of Castro Lighting. The entire production process is made in the brands' own factories in Portugal. Experienced craftsmen work to keep the tradition of brass crafting alive, being our responsibility to inspire and empower future generations to keep the tradition alive.

*To create a legacy in the history
of lighting design.*

Meet Halma Collection

Halma Collection was designed to celebrate the fusion of noble materials as well as simple and delicate geometry. Made with a structure of brass involved by clear crystal glass, this design unpredictably fuses the two materials in an effortless and original manner, granting it a cohesive and deluxe look.

This Castro's Lighting Signature Collection can flawlessly elevate and decorate any interior design project, either residential or hospitality. All in all, Halma Collection will certainly capture the attention of your guests.
