

Meridiano

Design by Jordi Vilardell & Meritxell Vidal.

Meridiano features a grid of steel slots through which LED light radiates outwards in a dramatic sunburst pattern. Topped with foam, it doubles as a seat or side table, its airy architecture integrating easily into outdoor spaces.

Meridiano is formed from a spherical steel shade fitted with open slots. An ambient LED shines through the glass diffuser, radiating outward from the grid across a broad surface in a dramatic sunburst pattern of shadow and light. Topped with foam, it doubles as a seat or side table, its airy architecture integrating easily into outdoor spaces.
