

ROSETO

Design by Francesco Dei Rossi

A rose garden for your interior.

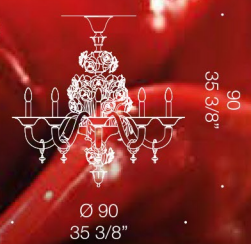

Roseto is a beautiful and elaborate chandelier inspired by the aesthetics of a rose garden. The rich details and colours make this piece an eye-catcher. Made with traditional glassblowing techniques, the glossy flowers make a glorious contrast with the grey glass components and the 24K gold leaf details. A charming piece which communicates timeless elegance and opulence. Diameter 90cm. Available in custom finishes and sizes.
