## TREVI

## THE BRAND

CTO Lighting is an exclusive, luxury lighting company, which celebrates contemporary design, premium materials and British craftsmanship. Our designs illuminate the interiors of iconic landmarks, commercial developments and prestigious residences around the world.

We hand select the finest materials, which are meticulously crafted into their unique designs, creating iconic and memorable lights. The signature materials of satin brass, bronze, alabaster, mouthblown and handmade glass are combined with design influences from both nature and architecture.

The handmade nature of the products results in truly unique lights, which produce a warm, ambient glow, setting a mood of sophistication and elegance.

There is a longevity to CTO Lighting products; the design and manufacturing process is always carefully considered and is timeless beyond trends. Lights can be selected from the CTO Lighting collection, or may be customised for your individual requirements.

Inspired by the famous fountain at the Piazza di Trevi, the junction of 3 roads which marks the terminal point of an aqueduct. The arms of TREVI provide a perfectly balanced composition where the lines meet and extend at the precisely formed central pillar. Illuminated with either 3 or 6 matt opal glass shades, this contemporary centrepiece is available in a satin brass or bronze finish.

Building on the design language of Trevi, the latest multi-arm version features elongated arms composed in a grid-like formation, suspending glass shades at two or three tiers. Designed to illuminate larger spaces, TREVI MULTI is available with 6 or 10 shades and can be easily scaled to fit any interior.

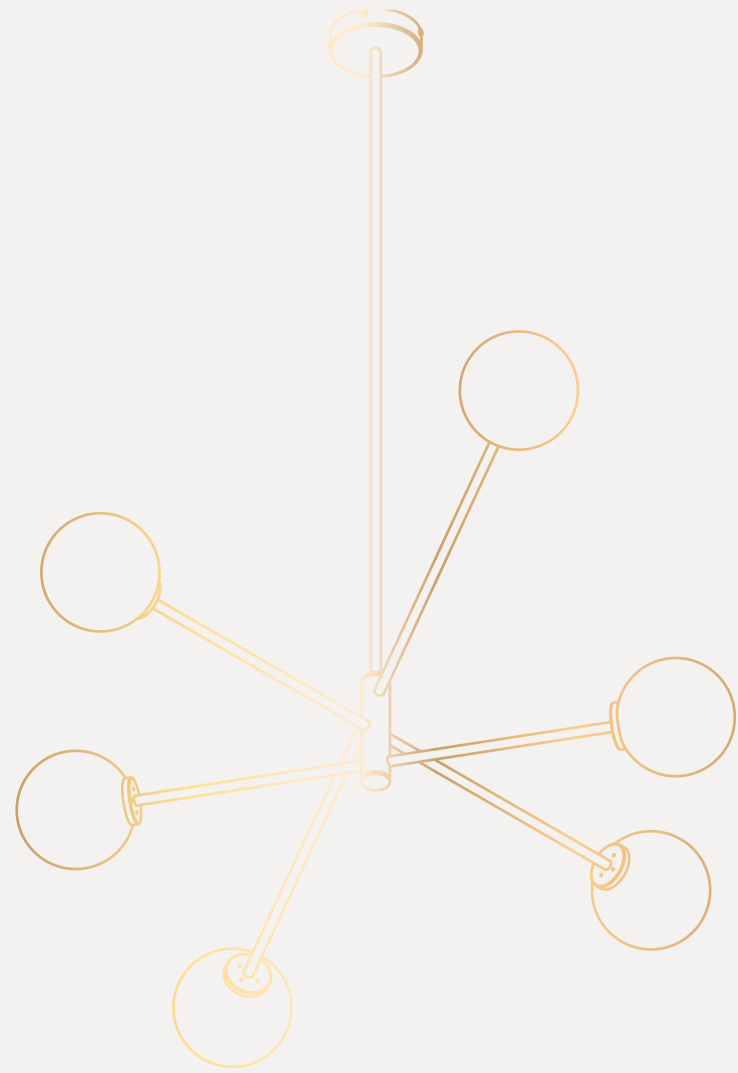

TREVI PENDANT | SATIN BRASS 

The elegant matt, acid-etched glass shades gently diffuse light to give the signature CTO Lighting ambient glow. The shades are suspended by an expertly engineered, solid brass framework.

 TREVI LARGE PENDANT | BRONZE

Perfectly suited to dining rooms, kitchen islands, reception rooms and studios, all versions of TREVI, can be dimmed to control the mood, providing both brightness and a soft ambience from its flexible form.

TREVI MULTI 6 PENDANT | BRONZE 

The modern composition of arms makes TREVI a unique showstopper for residential and commercial projects alike. Particularly suitable for higher ceilings and grand interiors where dramatic scale and proportion are sought.

## MATERIALS & FINISHES

## **SATIN BRASS & BRONZE FINISHES**

A key feature of CTO Lighting's pieces is processing high-quality raw materials by hand. In the case of solid brass, various artisanal techniques are used to create the exquisite finishes of satin, antique and polished brass, as well as bronze patination.
