

Cluster, Accessory

The cluster gives you absolute freedom to design the light you desire. With it, you can illuminate large spaces and create different compositions. Take into account the total power in watts, the power of the driver, and the wire entry points of the canopy. The total wattage of the selected lamps cannot exceed the max wattage of

the canopy's driver. Therefore, you must choose your canopy/driver by the power required. Finally, the number of lamps installed in a single canopy cannot exceed the number of wire entry points of that canopy.
