

FLORET CHANDELIER is a composition of electrical and basic wires; each wire may hold a certain number of petals. The compositions are extremely customizable.

The decorative petals are made of textured glass; the compositions are studied so to have a nice balance of transparent and coloured petals.

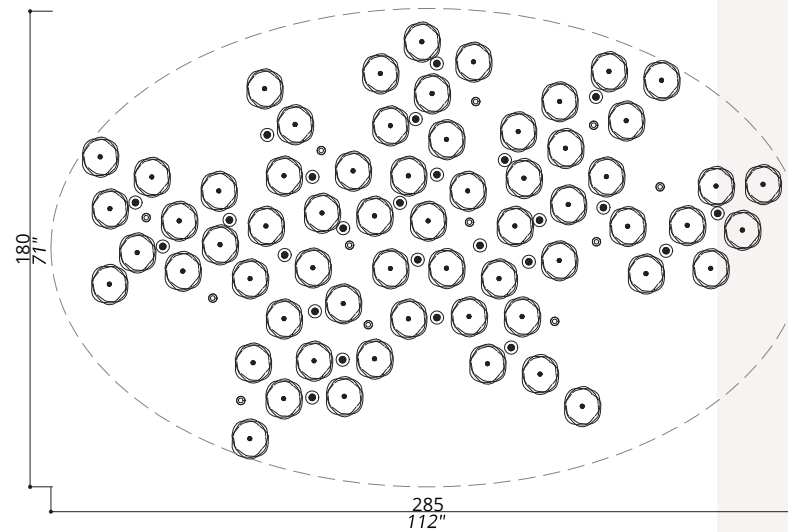

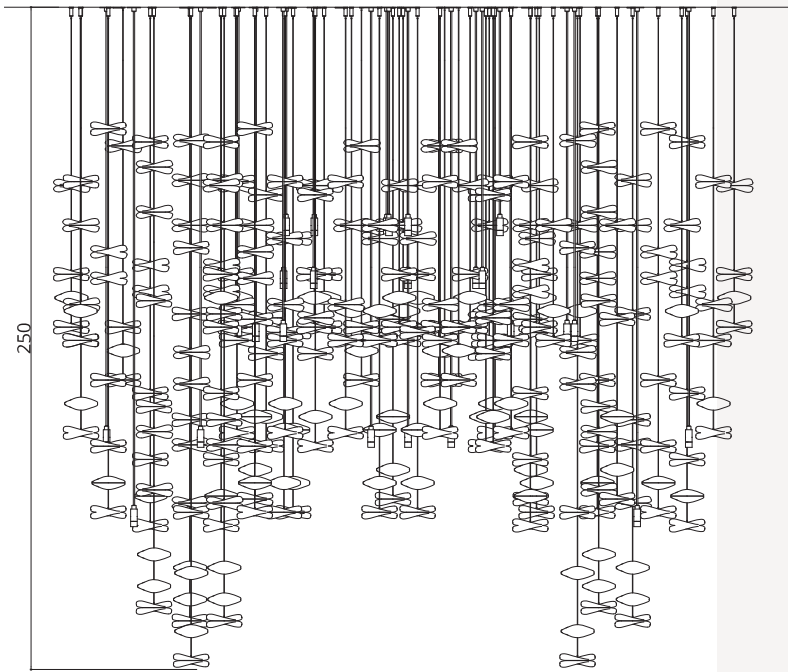

The standard chandelier is a mix of transparent and metal varnished glass petals; all the metal details are in matching finish except for the ceiling structure which is in a neutral color, if present. The standard lighting sources are: LED light pendants, under-petal LED chip lights and recessed ceiling LED lights.

## 5510-RR

LIVINGROOM  
COMPOSITION

GLASS PETALS IN TRANSPARENT AND POLISHED PINK GOLD VARNISH; METAL DETAILS IN F\_20 (POLISHED PINK GOLD FINISH) AND SMALL CEILING PLAQUES IN L\_57 (WHITE VARNISH). NO CANOPY. CAD TEMPLATE PROVIDED FOR CONSTRUCTION.

20 LED LIGHT PENDANTS  
10 LED CHIP (UNDERPETAL)  
30 RECESSED CEILING LIGHTS  
ALL INCLUDED
